

QR-Code Guidance Sheet

Contractor Review and Proof System
Version 1.0

Appropriate Uses

Use a review QR code on leave-behind cards, invoices where payment is already complete, team reference sheets, event displays, and office signage.

Pair the code with clear copy such as: Scan to share honest feedback about your service experience.

Inappropriate Uses

Do not place a review QR code where a customer may expect payment, ordering, warranty registration, or safety instructions.

Do not use a QR code to pressure customers, filter unhappy customers, or imply that only positive reviews are wanted.

Print and Testing

Use a practical minimum print size of about 1 inch by 1 inch for normal hand-held scanning and keep a clean quiet zone around the code.

Use strong contrast, test before printing, and keep a short plain-text instruction near the code.

Privacy and Consent

Do not pair the code with customer names, addresses, or private job details. For events or leave-behinds, make the action clearly optional.
